This decision is in response to Applicant's "REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT INDICATED ON PATENT ISSUED UNDER 37 CFR 1.705(D)" timely<sup>1</sup> file on June 27, 2005 requesting that the Patent Term Adjustment be adjusted from one hundred and ninety three (193) days to the amount of three hundred and thirteen (313) days. This petition is being considered pursuant to 37 CFR 1.705(d).

Applicant's petition is **GRANTED**. The Office will *sua sponte* issue a certificate of correction reflecting an adjustment of 313 days rather than the 193 day amount printed on the front of the patent.

Applicant argues that the Office erred in asserting an applicant delay of one hundred and twenty (120) days for the submission of drawings after the mail date of the notice of allowance. Applicants assert that the drawings submission occurred on January 14, 2004, not October 24, 2004.

Applicant's arguments are persuasive. A review of the file reflects that drawings were filed on January 14, 2004 not October 24, 1004. The drawings of October 24, 2004 were copies of drawings of January 14, The application does not reflect the submission of any drawings after the mail date of the notice of allowance. Accordingly, the Office erred by entering into PALM a drawing submission after the mail date of the notice of allowance. Accordingly, the one hundred and twenty (120) day reduction is in error because applicant did not fail to engage in any reasonable efforts to conclude prosecution of the application pursuant to 37 CFR 1.704(c)(10). Accordingly, the proper amount of PTA at the time of the issuance of the patent is three hundred and thirteen days (313) as asserted by applicant.
